ILLUSTRATORS

A Finding List Compiled by Louise P. Latimer
The Public Library, Washington, D. C.

This bibliography was prepared to meet a need of the Girls' and Boys' Department of the Public Library of the District of Columbia and is published in the hope that it may be of use in other libraries and in schools.

The list includes American and foreign illustrators whose work seems of sufficient merit to warrant inclusion and is confined to books in English and in print. It is not intended to be exhaustive of the work of many of the illustrators. Where it is selective effort has been made to choose typical examples.

The earlier edition has been brought up to date by the addition of new books, new editions and reprints, and by elimination of some titles, chiefly those now out of print. The inclusion of an author index in this revised edition should facilitate finding the illustrators of given books.

The Washington Public Library has assembled the listed books in an "Illustrators Room" set apart for advisory work with adults on children's books and illustration. To this room come parents, teachers, students, play and pageant directors, illustrators, commercial artists, interior decorators, and persons seeking information about available illustrators. Book collectors and those selecting gifts return again and again for suggestions.

The collection is valuable also in stimulating and training the department staff and in lectures to college and normal school students. In addition to these uses such an assemblage of books has definite publicity value for the library and for children's reading. Little argument, other than the books themselves, seems to be needed to persuade adults of their contribution to the aesthetic as well as intellectual development of young people.
